A construction app your field team will actually want to use

JobTrakr is where your team saves time and money. Create and share markups and takeoffs, issues, photos and videos, reports and more - instantly.

Why folks love Job Trakr:

Get your time back

Blueprints with coffee stains, endless email and text threads, too many trips to the site office, not anymore

Do more, worry less

JobTrakr is simple and intuitive - so you can focus more of your time on the jobsite not your tech

Helpful support instantly

The next best thing to getting an extra day in your week, support when you need it right away, from JobTrakr experts

Trakr Dashboard

Insight in a glance

Job Trakr dashboard gives you the 10,000 ft. view on your project progress instantly

Key features right at hand

Dive right into a plan page, task or report directly from your project overview, no menu diving here

Real-time tracking

Like a score ticker for your project, the event log gives you the active play-by-play for your project

The screenshot shows a project overview for 'Pasadena Med P3'. At the top, there are buttons for 'Close Project' and 'Edit Project'. Below this, the progress is shown as 0%, and it was created by Jim Riherd 2 weeks ago. The dashboard is divided into three main sections: 'PLANS' with 3 items and an 'Add Plan' button; 'TASKS' with 36 Open and 36 All tasks; and 'REPORTS' with 2 items. Below these is a 'Last 20 Activities' section with a list of recent actions by Jim Riherd, including adding reports and tasks.

REPORTS **2**

Last 20 Activities

- Jim Riherd add a report (Product Installation Report - 01/07/2022 - Pasadena Med P3) just then
- Jim Riherd add a report (Task Report - 01/07/2022 - Pasadena Med P3) just then
- Jim Riherd added a task (Rm16) 3 minutes ago
- Jim Riherd added a task (Rm18) 3 minutes ago

Media and Documents Hub

Media made simple

Upload, download, share, search, and assign all in one easy access point

Put a pin in it

Just like walking over and handing a field rep that page in the room, pin your doc directly to the room where the task is for maximum ease of use

Just in time

Time stamps and area associated media makes it easy to protect your margin when issues arise in completed areas

Punchlists Done Right

Typical Lists Tackled

Saved Templates for your typical lists allow your team to setup punchlists, safety walks, and prep lists once and get back to the task at hand

On-the-fly adjustments

Double tap trouble items on your list to flag them red for colleagues back at the office

Moving right along

Add a second premade checklist or individual items all under the same pin for easy referencing

The screenshot shows a mobile application interface for managing punchlists. On the left, a floor plan is displayed with various rooms labeled (Rm23, Rm24, Rm25, Rm26, Rm27) and dimensions. A checklist is overlaid on the right side of the screen. The checklist includes several items, some of which are checked or unchecked. A 'Task' panel is visible at the top right, and a 'Description' field is at the bottom right.
